

Application No.	Applicant	Applicant	Municipality	Project Name	Project Description	Total Amount Awarded
2021-GEDTF-001	Zoological Society of Pittsburgh	Zoological Society of Pittsburgh	Pittsburgh	Pittsburgh Zoo Front Visitor Entrance Revitalization	Later this year, we will break ground on a new front visitor entrance. As we reconstruct this portion of the Zoo, we also want to make improvements to the ZooFit path for all guests to enjoy. We plan to make improvements to the current concrete on the path, add concrete to the portions of the path that do not yet have any, add an ADAcompliant handrail on each side of the path for its entire length, widen the path from its current width ranging from 4-6 feet to 10 feet, and ensure the entire pathway is graded and sloped according to ADA standards so that all users can navigate the path with ease.	\$ 500,000.00
2021-GEDTF-006	Borough of Bridgeville	Borough of Bridgeville	Bridgeville	Werner St Slope Stabilization, Retaining Wall and Storm-water Improvements	On Werner Street, the scope of work includes installation of approximately 235 LF of soldier beam and concrete lagging retaining wall (varying heights, 0 to 14 feet), 220 SY of 8" 2A aggregate subbase, 4" of binder course asphalt, 600 SY of 1 1/2 wearing course asphalt, 55 LF of keyway milling, 350 LF of curb, 350 LF of 6" perforated underdrain, 230 LF of Type 31-S strong post guiderail, installation of three type M inlets and one 4' diameter storm manhole, erosion and sedimentation controls, traffic control and all necessary appurtenances and restoration for said construction.	\$ 500,000.00
2021-GEDTF-008	The Dog Bar, LLC	The Dog Bar, LLC	Pittsburgh-Ward 11	Hound Haus	Funding will be used towards acquisition cost of the property	\$ 100,000.00
2021-GEDTF-015	Allegheny Land Trust	Allegheny Land Trust	Franklin Park	Blackburn Woods Conservation Area Expansion and Restoration	The acquisition and restoration of these parcels will link Blueberry Hill Park and ALT's Blackburn Woods, filling a greenway gap, providing convenient access to recreation, buffering and mitigating the noise and air pollution of I-79, and absorbing 20 million gallons of rainfall annually to mitigate flooding in Kilbuck Run. During pre-acquisition due-diligence the sellers disclosed that a previous owner had used a small part of the site (<1 acre) as a dump site for construction and landscape debris. A Phase 1 environmental assessment defined the extent of the dump and confirmed the non-hazardous nature of its contents. Also a dilapidated ranch house remains on the property. This requests ""last-in"" funding needed to complete the land acquisition, demolish the structure, remove the dump and structure debris, and restore the disturbed portions of the land to a natural state thru grading, the spreading of clean topsoil, and the planting of native trees and ground cover. The project will conserve the land, enable it to deliver maximum ecological benefits, and safely welcome visitors. Restoration activities will be conducted by a qualified contractor under direction of ALT stewardship staff."	\$ 50,000.00
2021-GEDTF-017	Turtle Creek Valley COG	Turtle Creek Valley COG	Wall	Marie Street Retaining Wall	The existing tie wall will be replaced with a permanent concrete structure, 850 SF of retaining wall, 106 ft of 12" footer, 120 LF of 6" drain pipe	\$ 50,000.00
2021-GEDTF-023	Turtle Creek Valley COG	Turtle Creek Valley COG	North Braddock	Hawkins Ave. Bridge Rehabilitation	This existing bridge structure has been identified by Penn DOT inspectors as having significant structural defects requiring immediate attention.	\$ 100,000.00
2021-GEDTF-025	Scott Township	Scott Township	Scott	Splash Pad Restrooms	The scope of this project generally consists of the construction of ADA accessible restroom facility. Please refer to the Opinion of Probable Costs as prepared by Lennon, Smith, Souleret Engineering, Inc.	\$ 100,000.00
2021-GEDTF-038	Bethel Park Historical Society	Bethel Park Historical Society	Bethel Park	BPBS Building Renovations	Replacing outside staircase on rear of the building as the current staircase is in very poor condition. Repointing the brick on the building. The original building was built in 1905 and in 1917 they added an addition. The mortar joints are in need of repair.	\$ 100,000.00

Application No.	Applicant	Applicant	Municipality	Project Name	Project Description	Total Amount Awarded
2021-GEDTF-039	Lynn Colosi	Moon Transportation Authority	Moon	Montour Run-Market Place Final Design	The Project is Final Design of Montour Run Rd-Market Place Blvd, construction of which was selected by Congressman Conor Lamb as one of four Community Earmark Projects through an appropriations request earlier in 2021. The Project, Final Design, completes engineering of Montour Run Rd from the western intersection with I-376 Business to the eastern intersection with FedEx Drive, a one-mile segment, plus a .25-mile segment of Market Place Blvd. Specifically the Project will complete design of: 1) extension of westbound (WB) left turn lane at I-376 Business; 2) extension of eastbound (EB) left lane and addition of EB thru lane at Market Place Blvd; 3) extension of WB right turn lane at Market Place Blvd; 4) realignment of current lanes on Market Place Blvd plus addition of southbound (SB) turn lanes on Market Place Blvd; and 5) mill and overlay improvements on one-mile segment of Montour Run. The product resulting from the Project will be a Plans, Specifications & Estimates (PS&E) package, commensurate with PennDOT requirements, that will enable construction and delivery of a key project in the 17th Congressional District of Pennsylvania.	\$ 250,000.00
2021-GEDTF-040	Borough of Avalon	Borough of Avalon	Avalon	Avalon Community Park Basketball Court Improvements	This project will rehabilitate the existing basketball court that was built in the 1970's. The 625 SY court area will be prepared by milling/profiling to 10.5" depth followed by 6" milling subbase, preparation of subgrade and installation of Class IV Fabric. A 3" depth Superpave WMA Binder (120 ton) course will be applied followed by a 1.5" Superpave WMA wearing course will complete the court. Application of acrylic color coating system for line striping will be applied to the court. Installation of 6 basketball hoop assemblies including single style pole 4' & 5' extensions, foundation and 72" backboards and breakaway goals. Replacing 310 LF of 12' galvanized chain link fence. Adding 550 SF of 5' ADA accessible concrete sidewalks. Installing two (2) 8' mounted aluminum player benches and (2) garbage receptacles.	\$ 179,160.00
2021-GEDTF-042	Ray Rogers	Oakmont Community Foundation	Oakmont	Allegheny Avenue Realignment	This is a portion of the overall Allegheny Avenue Realignment that included the acquisition of the former gas station located at 507 Allegheny Avenue in Oakmont, environmental remediation, demolition of the building, design of the realignment of Allegheny Avenue, lighting, curbing, paving, drainage, landscaping and the acquisition of site equipment. The requested funds will be used to construct a parking lot that will cover 17,545 s.f. with base, drainage and asphalt. Underground conduit and lighting will be installed. ADA curb ramps will be installed in addition to 1,500 s.f. of sidewalks and 250 linear feet of curbing. Landscaping and streetscape features will be installed to match the existing along Allegheny Avenue and the adjacent Arboretum Trail. Appropriate signage and pavement marking will be placed at the end of construction.	\$ 150,000.00

Application No.	Applicant	Applicant	Municipality	Project Name	Project Description	Total Amount Awarded
2021-GEDTF-045	South Fayette Township	South Fayette Township	South Fayette	Fairview Park Ballfield Complex	Funds from GEDTF program will be used to construct Phase 3 of the Fairview Park expansion project, including building the Fairview Ballfield Complex. Specifically, funds will go toward constructing three Little League fields with artificial turf infields, lights, scoreboards, a batting cage and ADA-compliant walkways, dugouts and bleachers. Two of the fields will be 200-foot outfields and one will be a 240-foot outfield. All fields will be used by youth baseball, youth softball and youth cricket. Fencing will be installed around each field with 20-foot-high fencing along the outfield for safety reasons. Drainage and erosion control will be part of the project to address stormwater concerns. The light fixtures will be LED for cost savings and reduced environmental impact. Dugouts will be masonry fixtures with ADA access. Bleachers will be placed at each field on each side for home and visitor sections on a concrete pad connected to sidewalks and dugouts for seamless ADA access. A scoreboard will be installed at each field with solar panels as a reusable energy source.	\$ 145,000.00
2021-GEDTF-046	The Shirley Weinberg GST Exempt Trust	The Shirley Weinberg GST Exempt Trust	Pittsburgh-Ward 15	Bigelow Revitalization Project	The project involves the rehabilitation of existing housing that will help to revitalize several dilapidated properties. These improvements will help to elevate the neighborhood and promote future investment while offering quality housing options to existing and new residents. Updated housing amenities will be offered (interior and exterior) such as appliances, security systems and energy-efficient HVAC upgrades. In addition the exterior of each property will be revitalized including new roofing, siding, doors, garages, and windows which will improve the appearance throughout this neighborhood. Also include are facility upgrades such as electrical service.	\$ 100,000.00
2021-GEDTF-047	Township of Stowe	Township of Stowe	Stowe	Township Paving Project	The work consists of milling approximately 11,285 square yards of roadway and repaving along Penn Alley and Derby Alley. Additional documents have been attached depicting specific quantities for each roadway.	\$ 125,000.00
2021-GEDTF-048	Steel Rivers Council of Governments	Steel Rivers Council of Governments	Liberty	Storm Inlet Replacement	Project involves the removal of 10 catch basins and installation of 10 2'x4' type m inlets with bicycle safe grates - include pipe connection and 50 LF of 15' storm pipe.	\$ 75,000.00
2021-GEDTF-050	Steel Rivers Council of Governments	Steel Rivers Council of Governments	Port Vue	Port Vue Blight Remediation	Removal of six (6) blighted structures by demolition including asbestos abatement, and all related activities. Demolition sites: 1) 1822 Trimble Avenue - Lot/block # 465-A-129 2) 1425 Washington Blvd - Lot/block # 383-N-007 3) 1027 Lysle Avenue - Lot/block # 383-G-146 4) 1106 Monroe Ave. - Lot/block # 383-G-101 5) 1801 New York Ave. - Lot/block # 465-A-095 6) 1109 Norwood Ave - Lot/block # 383-J-180	\$ 75,000.00
2021-GEDTF-051	Steel Rivers Council of Governments	Steel Rivers Council of Governments	Whitaker	New Public Works Facility	Demolition and site preparation, erect steel pole building with concrete floor, man doors, garage doors with openers, and windows, interior lighting/fixtures, exterior lighting/ fixtures, installation of utilities including gas service, unit heaters, electric service, breaker panel, and telephone and internet, constructing locker room facilities with equipment, constructing an office area with equipment, installing miscellaneous storage units, containers wall hangers etc., bituminous driveway pavement, concrete sidewalk and garage entrances, and miscellaneous, site restoration and landscaping.	\$ 100,000.00

Application No.	Applicant	Applicant	Municipality	Project Name	Project Description	Total Amount Awarded
2021-GEDTF-058	Traci M. Weatherford-Brown	The Frick Pittsburgh	Pittsburgh-Ward 14	Clayton Masonry Project	Critical improvements to the five tallest chimneys-which pose access challenges necessitating complicated technology-are required, including masonry repairs, water-proofing, and a coating of mineral silicate paint.	\$ 100,000.00
2021-GEDTF-061	Turtle Creek Valley COG	Turtle Creek Valley COG	Plum	Center Beach Flood Improvement	The Center Beach Project is a proposed Flood Improvement Project located in the Borough of Plum, Allegheny County, Pennsylvania. Following a damaging flood event in July 2019, the Borough formed a Stormwater Task Force to consider possible flood control measures throughout the Borough. The Project proposes to create a series of four (4) interconnected impoundments that will attenuate the stormwater peak flows and volumes. A network of walking trails, along with other amenities such as a gazebo and benches, will be installed to provide passive recreation for the public.	\$ 150,000.00
2021-GEDTF-064	Township of Pine	Township of Pine	Pine	Harmony Trail Project	The extension will require a new hiking bridge across Wexford Run and approximately 300 feet of asphalt trail to provide safe hiker access from the current Harmony Trail trailhead west toward the new intersection. State Highway 910 does not offer an alternative because its bridge across Wexford Run is already too narrow and is not scheduled for rebuild anytime soon. Construction will be within State and Township road right-of-way property and pedestrian easements recorded over private property owned by the Blue Heron Ridge Home Owners Association. The Blue Heron Ridge HOA has agreed to provide an in-kind donation of the land to support the completion of the project. The total estimated cost of the Township of Pine Harmony Trail project is \$364,822.00. If funded, construction can begin in January 2022 and finish by the end of 2022.	\$ 50,000.00
2021-GEDTF-065	Lynne Williams	Ingomar-North Recreation and Swimming Club, Inc. (INRSC)	McCandless	INRSC Recreation Facilities/Swimming Pool Renovation	Full rehab of pool pump, filtration, and water mitigation for the pool, pump house, and run off areas. Existing infrastructure is 60 years old. Replacement of 1,000 linear feet of fence to bring pool up to code, including required exits. This will also create an area for the dumpster, which will be lockable. Replacement of 250 feet of fencing to separate main pool from baby pool. Structural improvements to the storage deck, including repair of deck concrete and fencing to allow usage again. Current structure is closed due to safety concerns. Electrical grounding of ladders, starting blocks, diving board, and lifeguard chair to be replaced; required by electrical and safety codes. Paving of parking lot (8785 sq. ft of surface parking) to increase usage area. Replacement of Pool cover (3,375 sq feet) for winter pool protection and public safety during months when the pool is closed. Replacement of pool liner (190,000 gallon pool). Replacement of 4 cast iron pool ladders with aluminum or plastic due to age and physical deterioration of current ladders.	\$ 75,000.00

Application No.	Applicant	Applicant	Municipality	Project Name	Project Description	Total Amount Awarded
2021-GEDTF-072	Doris Carson Williams	African American Chamber of Commerce	Pittsburgh	Business Institute Workshop Series	Each company entering the Business Institute Program must understand in order for the program to be considered successful, the expectation of the Chamber is their commitment of time to move their firm to the next level. An initial assessment will be prepared by the Program Director for the firms Advisory Council. Included will be a tailored Memorandum of Understanding. The participant, Program Director, and the lead member of the Advisory Council will sign the document. Each will contain projected outcomes that will be benchmarked according to their industry category. A firm's growth will be measured using their baseline data and projections made in increments for their two-year commitment in the program. The MOU will also indicate the firm's information will be shared in aggregate with organizations funding the program. The outcomes to be measured will include the following: 1.Increase sales by 5 - 10% or firms' profit income by 5 - 10% in the first year. The second year, depending upon the industry, sales or the firm's profit margin should range between 10-17.5%. 2.Incremental increases in capacity. Depending upon the industry, for every \$20K in sales, at least 1 position should be added to the firm's staff. This is a professional hire at a salary level well above those in construction and service related industries).	\$ 25,000.00
2021-GEDTF-073	Oakdale Borough	Oakdale Borough	Oakdale	Town Center Improvements Project	The project consists of the removal of the existing gazebo, surrounding brick surface, and multiple trees in the area. Improvements include the installation of a 12' x 14' gazebo, 105 LF of 6-foot vinyl fence, pine tree planting, electrical improvements, 90 SY of concrete sidewalk replacement, new asphalt parking lot, and landscaping improvements.	\$ 25,000.00
2021-GEDTF-078	North Hills Council of Governments	North Hills Council of Governments	Richland	Gibsonia Road (SR 0910) & Community Center Drive (T-764) Intersection Improvement Project	1,684 CY Clearing/grubbing & Class 1 Excavation, 4,980 SY of Superpave Asphalt, 148 LF of concrete curb, 58 LF of concrete sidewalk, traffic protection during construction, drainage, signage, pavement markings, 1 traffic signal, left turn lanes on Gibsonia Road, utility pole relocation, E&S, 1,208 SF property -right-of-way acquisition, 5,250 SF temporary construction easement, engineering/inspection	\$ 305,000.00
2021-GEDTF-080	Woodland Hills School District	Woodland Hills School District	Swissvale	Renovating Carnegie Free Library of Swissvale	This \$2.98 million renovation project includes constructing an addition housing an elevator to make the library accessible, plus other improvements. GEDTF grant funds would be used to purchase and install new HVAC and electrical systems in the existing building. The primary proposed HVAC system is a Variable Refrigerant Flow (VRF) System employing multiple indoor fan coil units and a single outdoor air-cooled heat recovery unit. Outdoor ventilation air to occupied spaces will be provided with a rooftop dedicated outdoor air system (DOAS) using air-to-air energy recovery, DX cooling, hot gas reheat, and a gas furnace. In addition, two single-zone condensing gas furnaces with split DX cooling systems will serve large volume spaces. The existing utility company electrical service to the building will be removed and replaced with a new utility company underground 120/208 volt, 3-phase, 4-wire secondary electrical service. All existing distribution and branch circuit electrical panelboards, wiring devices, lighting fixtures, lighting controls, telecommunications and low voltage system equipment and devices, and all associated conduit and wiring will be removed and replaced with new equipment, devices, conduit, and wiring. All wiring will be comprised of copper conductors with 600V type THHN-THWN insulation and will be installed in conduit.	\$ 150,000.00

Application No.	Applicant	Applicant	Municipality	Project Name	Project Description	Total Amount Awarded
2021-GEDTF-082	FAWN TOWNSHIP	FAWN TOWNSHIP	Fawn	Thompson Road Paving Project	Milling, reconstruction and paving of approximately 7675 feet of Thompson Road from Rt 908 to Dawson Road	\$ 50,000.00
2021-GEDTF-083	Allegheny Land Trust	Allegheny Land Trust	Pittsburgh-Ward 16	Hilltop Urban Farm Property Acquisition	The purpose of this grant is solely to contribute to ALT's acquisition of 75 acres of the former St. Clair Village public housing complex from the URA of the City of Pittsburgh. ALT will own the land in perpetuity and assume responsibility for its stewardship. A long-term lease with the Hilltop Farm will provide the farm with the stability in land control it needs to raise funds and make the more permanent capital investments necessary to ensure its continued growth and expanded service to the community.	\$ 200,000.00
2021-GEDTF-086	Richard Hill	Harrison Township	Harrison	Harrison Property Recovery Project	Harrison Township is saddled with the costs of maintaining over 100 properties that have been abandoned by the owners and accumulated delinquent taxes well in excess of the property values. The property recovery project will clear the title to 107 properties to permit the reuse of the property. Clearance will include title searches, appraisals, engineering, legal services and the cost of clearing the title. Once title is cleared, the township will utilize funds from an RACP grant to perform any required demolition and abatement work. The estimated costs are \$214,000 for the land clearance, \$12,000 in administrative costs and \$24,000 for engineering services.	\$ 100,000.00
2021-GEDTF-088	Turtle Creek Valley COG	Turtle Creek Valley COG	Wilmerding	Wilmerding Community Center Rehabilitation	This project entails the following: HVAC in the locker rooms, spin/aerobics studio, and indoor track area, installation of a new walking/running track, repair drainage & resurface basketball court, playground equipment, exercise station, repair & replace pavilion roof, installation of a french drain in the parking lot and replacement of the indoor running track.	\$ 75,000.00
2021-GEDTF-095	Allegheny Valley North Council of Governments	Allegheny Valley North Council of Governments	Verona	Verona Alley Reconstructions	In the worse condition areas, the alleys will be milled 5" deep and have 3.5" of 19MM binder placed followed by 1.5" of 9.5MM wearing placed. In the areas not too bad they will be milled 1.5" deep and have 1.5" of 9.5MM wearing placed. There is a line item for any areas of damaged base to be excavated out an additional 12" and have 12" of compacted stone put in place. On Oak Alley there is a water issue and 275' of 8" underdrain will be installed. Overall there is 5160 SY of milling, 5160 SY of 9.5MM wearing and 910 Ton of 19MM binder.	\$ 139,400.00
2021-GEDTF-097	Borough of West Mifflin	Borough of West Mifflin	West Mifflin	West Mifflin Park Renovation	West Mifflin Borough seeks to improve the recreation facilities in its main Borough Park. This project will replace existing play structures with new equipment to create a gathering place that will be more accessible, aesthetically pleasing, and useful to the community. As a part of its long-term plan for recreation and parks, West Mifflin has identified improvements to parks facilities as a priority. This project would move the Borough toward that goal. West Mifflin Park is located at the heart of the Borough on land that has a challenging topography in its 55-acre footprint. The park is owned and maintained by the Borough, and is available for use by residents and non-residents alike. Pavilions are available to all for rent. This project is one phase of four that are anticipated to improve the amenities available in West Mifflin Park. Additional phases will add amenities throughout the park, including an amphitheater and updated pavilions.	\$ 200,000.00

Application No.	Applicant	Applicant	Municipality	Project Name	Project Description	Total Amount Awarded
2021-GEDTF-099	Allegheny Valley North Council of Governments	Allegheny Valley North Council of Governments	Cheswick	Cheswick Traffic Signal Replacement and Upgrade at N. Highland Ave. and Pittsburgh St.	The proposed project will include preliminary and final engineering with field survey, traffic study, traffic signal permit and plan revisions, ADA ramp designs, bid package preparation, bidding of project and construction and installation of new traffic signal.	\$ 100,000.00
2021-GEDTF-106	Linda Sue Bennett	Elizabeth Township Historical Society	Elizabeth	Greenock Log House	Work on this phase includes tearing off and disposal of the existing shingle roof. The approximate 24" current overhang on the eaves and gables will cut to 12" +/- . New cedar soffit and fascia will be installed on all gables and eaves. The gable fascia boards will be tapered rake style. Heavy snow and ice guard will be laid down on the eaves, gables and around chimney base. The remainder of the roof will be covered in 30lb. felt paper. The stone veneer on the chimney will be done. Next, the entire roof will be lathed with 3/8" x 1 1/2" shingle lathe. It will be spaced 10"+/- which will also be shingle spacing. This 1 1/4" hand split cedar shakes will be nailed with either hot dip galvanized shingle nails or stainless. The veneered chimney will be flashed. The 1" x 6" v-shaped gutters will be built on site and installed. Aluminum down spouts will be installed and clad in 1x cedar. All soffit, fascia, gutters and down spouts will be finished (Sikkens). The cedar roof will be treated (sprayed) with a preservative. Electrical: (1) 100A underground service complete with a 20 circuit panel including all necessary grounding as per code. Install all new wall switches, wall receptacles on the 1st and 2nd floor. Install all LED track lighting on the 1st and 2nd floor. All wiring to be in wire mold surface raceway. All necessary permits and inspection fees are included. Complete HVAC will be installed.	\$ 100,000.00
2021-GEDTF-111	South Hills Interfaith Ministries	South Hills Interfaith Ministries	Bethel Park	SHIM Center ADA Renovation	The project includes ADA improvements to both levels of the SHIM in Bethel Park, Pennsylvania. The work consists of the renovation of 7,200 SF of existing area to improve client support services and reconfigure administrative offices. A 350 SF addition at the lower level provides an on-grade accessible entrance immediately adjacent to parking. A 360 SF elevator tower provides accessible access to both floors of the building which does not exist now. Additional improvements include: reconfiguration of office space to the lower level adjacent to the new entrance addition which will improve service to clients. The food pantry/clothing shop are reconfigured to provide improved accessibility. Existing MEP systems are replaced to improve efficiency. 95 feet of existing exterior wall at the lower-level warehouse space are skinned with a new thermally superior wall system to improve thermal performance. New borrowed lights are cut into existing lower-level walls to improve client and staff experience in the open office space. A new conference room is created at the lower level which will be available and utilized by outside local community groups. The addition at the lower level creates a lobby and reception area conveniently located to accessible parking. A new vestibule is constructed off the waiting area to provide an energy efficient entrance into the building. The addition also creates a singular entrance point for clients which will improve their experience.	\$ 370,000.00

2021-GEDTF-112	Northland Public Library	Northland Public Library Authority	McCandless	Northland Public Library Entrance/Stair Replacement Project	The project consists of demolition of existing 100 square foot vestibule, 1,200 square foot raised patio and 60 foot ramp and replacing it with a new 800 square foot two-story vestibule enclosure with sheltered, accessible entrance. Project includes renovating the surrounding street level 2000 square foot concrete patio, planters, stairs and a new 60 foot long switchback accessible ramp from the patio level to the new entrance vestibule. The addition will have 600 square feet of seating areas and a new stairway between the floors. Includes renovation of 1,150 square foot interior lobby to remove existing poorly accessible circular stairway between the floors, replace stairs with 450 square feet of new floor, relocating the door to the Administration area, renovation of Circulation area, and replacing 60 feet of walls to allow installation of a new fully accessible 35 foot long circular service desk, for a single point of all public circulation services, along with 45 linear feet of book-hold casework behind.	\$ 150,000.00
2021-GEDTF-120	Ryan Wirth	Pine-Richland Youth Center	Richland	Community sports non-profit facility rehabilitation	Replacement of softball field backstop - the project will remove the old backstop and replace it with a new 16' batters cage with new piping and fencing. Installation of new 6' tall vinyl fencing for a total length of 695'. This will encase athletic field. Replacement of original athletic flooring, dating to 1950, for our auxiliary gym with synthetic, all-purpose sports court. The total area is 2,662 sq. ft. Replacement of original athletic flooring, dating to 1998, for our field house gym with synthetic, all-purpose sports court. The total area is 7,800 sq. ft. Replacement of 2, 15 foot, 3-row bleachers, as well as 1 18 foot, 3-row bleacher in the field house. Replacement of existing, non-working scoreboard with 2 new, Daktronics scoreboards for athletic events. Replacement of original basketball structures in the auxiliary gym. This would entail the replacement of the total basketball hoop system.	\$ 95,000.00
2021-GEDTF-124	Blackridge Civic Association	Blackridge Civic Association	Churchill	Blackridge Civic Association Revitalization	1) The paint is peeling & leaks are worsening. Repair cracks/leaks in the concrete large pool, prime & paint. The top of the pool that meets the concrete decking needs recalling/sealing. 2) Replace the 20 year old bromine chemical system with a new chlorine system/autofeed for added safety for large & toddler pools. 3) Repair of unsafe cracked & uneven concrete pool decking where necessary. Problem areas will be jack-hammered out & new base/concrete completed. 4) Replace old failing approximately 700 Sq foot wooden deck (30+ years old) with decaying portions & washout of hillside pilings underneath decking all adding to increasing safety issues. The chemical storage shed under the deck needs new roofing. There are also old wooden stairs leading down to the terrace below that need replacing. This is where the pump room & chemical shed access is.	\$ 100,000.00

2021-GEDTF-129	Pittsburgh Opera, Inc.	Pittsburgh Opera, Inc.	Pittsburgh-Ward 02	Pittsburgh Opera 2022-2023 Season	Pittsburgh Opera respectfully seeks funds to support the expenses of operating an organization with nearly \$7.4 million in economic impact. Through its core programming, events, and related activities, Pittsburgh Opera will engage a diverse audience and offer employment opportunities to more than 600 highly skilled professionals. Pittsburgh Opera will present performances and programs for more than 60,000 individuals, with almost a third of our audiences participating in education and community engagement programs designed for both students and life-long learners. Our programs include activities for families and students from economically underserved areas of our region (including schools with over 90% of students qualifying for free and reduced-fee lunches), students from southwestern Pennsylvania colleges and universities, individuals with hearing impairments, educators who participate in professional learning opportunities, as well as thousands of individuals who explore our work on our website and social media sites and tune in to Pittsburgh Opera previews and opera broadcasts on the radio.	\$ 205,000.00
2021-GEDTF-135	Quaker Valley Council of Governments	Quaker Valley Council of Governments	Ben Avon	BEN AVON BOROUGH BUILDING REPAIRS, RENOVATIONS AND ADDITION	The project involves the renovation of the Ben Avon Borough Building to abate 2,500 sf of asbestos underlayment in the roof, lead-based paint at 15 windows, replace 2,500 sf of slate roof, replace 1 overhead door, replace 15 windows, including lintels, interior and exterior trim. This work is necessary to improve energy efficiency, thermal comfort and security. The pre-construction phase of the project includes: architectural design services. Proposed uses include garage, storage and mechanical/utility room at basement; Borough office, meeting space, public restroom and council chambers on first floor, and an open assembly area with kitchenette on second floor. This project will enhance the functionality of the second floor Memorial Hall by improving the thermal comfort in alignment with the Ben Avon Borough Climate Action Plan (in progress).	\$ 200,000.00
2021-GEDTF-137	Allegheny Valley North Council of Governments	Allegheny Valley North Council of Governments	Harmar	Harmar Highlands Woods Pump Station and Force Main Replacement	The work will be to replace a failing pump, upgrade all the electrical components, install a new backup generator, install all the necessary valving and fittings and trenchless slip lining of the existing force main for 2,500LF.	\$ 45,000.00
2021-GEDTF-138	Castle Shannon Borough	Castle Shannon Borough	Castle Shannon	Saw Mill Run Stream Improvements	This project generally consists of 300 linear feet of stream restoration of Squaw Run. .	\$ 150,000.00
2021-GEDTF-143	Borough of Edgeworth	Borough of Edgeworth	Edgeworth	Beaver Road Bridge Repairs	The scope of work consists of concrete patching for the spalled areas along the concrete barrel and headwall, installation of new endwall, installation of riprap stabilization, and various storm sewer pipe.	\$ 100,000.00
2021-GEDTF-144	Etna Community Organization	Etna Community Organization	Etna	The Etna Center for Community	The requested funds will be used to purchase a historic building in the heart of Etna's business district. This will be the future site of the Etna Center for Community.	\$ 175,000.00

Application No.	Applicant	Applicant	Municipality	Project Name	Project Description	Total Amount Awarded
2021-GEDTF-148	Casa San Jose	Casa San Jose	Pittsburgh-Ward 19	Casa San Jose Building Renovation	Total interior renovation of 1602-1606 Broadway Ave, floors and floor structure, wall systems, ceilings, doors and hardware, kitchen cabinetry and food heating equipment, new HVAC throughout, new electric system upgrade, all new LED lighting, fire alarm and fire sprinkler installation, telephone/data network installation, plumbing installation, stair and elevator addition, exterior building shell improvements, new windows and storefront entrance system.	\$ 125,000.00
2021-GEDTF-149	Township of Moon	Township of Moon	Moon	Boggs Run Fire Station Waterline Extension	The scope of this project consists of approximately 2300 LF of 12" waterline and 500 LF of waterline services. Please refer to the attached Opinion of Probable Costs as prepared by Lennon, Smith, Souleret Engineering, Inc.	\$ 150,000.00
2021-GEDTF-150	Township of Moon	Township of Moon	Moon	Mooncrest Sewer Extension	The scope of this project is to extend Sanitary Sewer service via approximately 525 linear feet of gravity flow sanitary sewer pipe, three new manholes, 3 site tees, and connection to the existing manhole.	\$ 99,411.00
2021-GEDTF-156	Margaret Beldecos	Trade Institute of Pittsburgh	Pittsburgh-Ward 13	Trade Institute of Pittsburgh HVAC Upgrades	The Trade Institute of Pittsburgh's (TIP) facility includes an applied lab where students can practice all aspects of hands-on masonry and carpentry competence. Students are placed in real-world settings, where they mimic environments and practice/test skills they would utilize in permanent employment. It is designed to be a fluid physical work space for the students and instructors. TIP proposes to upgrade the facility's HVAC, electrical and pollutant collection systems. Improvements are necessary to create an optimal, safe learning environment. The project will include dust collection and extraction, ventilation to meet occupant needs, and heating/cooling requirements. All systems and solutions will be designed to optimize performance and efficiency. Including, but not limited to, short and long-term operational expenses, routine maintenance, utility costs and ease of use.	\$ 150,000.00
2021-GEDTF-159	John Sicilia	Northern Regional Police Department	Pine	Public Safety Radio Replacement Project	The funding requested will be used to replace the current outdated radio equipment our police officers are using. The radio equipment has been discontinued by the manufacturer and parts are no longer available. The existing obsolete radios are also not capable of being used to communication with public safety agencies on higher frequency bandwidths.	\$ 100,000.00
2021-GEDTF-160	West Deer Township Volunteer Fire Co. No. 3	West Deer Township Volunteer Fire Co. No. 3	West Deer	Fire station relocation project	Renovation of a existing vacant commercial building for use as a fire station. Project includes electrical and plumbing work revisions, installation of a fire sprinkler system, enclosing an existing 4,900 sq. ft. canopy in the rear of the building and installation of an emergency backup generator.	\$ 250,000.00

Application No.	Applicant	Applicant	Municipality	Project Name	Project Description	Total Amount Awarded
2021-GEDTF-169	Mayda Roth	Rodef Shalom Congregation	Pittsburgh-Ward 07	Roofing Replacements and Repairs	The funds will be used to replace roofing on multiple roofs and repair the parapet coping. The work includes 1) removing existing EPDM roofing material and insulation; 2) furnish and install new polyisocyanurate roof insulation to achieve an R-value of R-30, which is energy-efficient; 3) furnish and install 60-mil fully adhered EPDM over top of new insulation with all necessary flashing; 4) fabricate and install counter flashing as needed; and 5) upon completion of project, supply Congregation with twenty (20) year manufacturer's warranty. In addition, the awarded funds will be used to replace the caulking on the parapet coping. The joints between each coping unit, occurring every two to three feet between each parapet stone, need their caulking to be replaced. Since the caulking has deteriorated to the point of enabling water penetration, it needs to be removed and a new caulking seal must be installed throughout. Additional work will include addressing water penetration by repairing lintels, skylights, replacing missing bricks and repointing parapet walls to ensure stability.	\$ 200,000.00
2021-GEDTF-172	Daniel Mator	West Deer Township	West Deer	Bairdford Park Development Project	This project is the continuation of a Park Master Plan for both West Deer's Nike Site Park and Bairdford Park funded in part through multiple grants from the DCNR and the GEDTF. The focus of this application is the Bairdford Park Phase "A" portion of the Park Master Plan, and includes: the renovation and reconfiguration of a playing court area; a striking new dek hockey court; the addition of ADA accessible parking areas and walkways; a reconfigured and optimized parking lot; and new bleachers for the section of the park.	\$ 59,411.00
2021-GEDTF-176	Borough of Edgeworth	Borough of Edgeworth	Edgeworth	Church Lane Sanitary Sewer Lining	The scope of works includes complete manhole to manhole cured in-place (CIPP) lining for an existing 24" diameter vitrified clay pipe (VCP). The project generally consists of approximately 1,100 linear feet of cleaning, lining, televising; maintenance and protection of traffic; and erosion and sedimentation controls.	\$ 100,000.00
2021-GEDTF-179	Pittsburgh Technical College	Pittsburgh Technical College	North Fayette	Corporate College - Advanced Welding Program	Pittsburgh Technical College (PTC) strives to deliver the job training needed for the advanced manufacturing efforts geared toward providing skilled workers who can help boost the economy for the greater Pittsburgh area and all of southwestern Pennsylvania. In turn, PTC has launched a strategic plan which calls for the expansion of workforce development aligned with labor market demand through its Corporate College. To complement this mission, PTC has formed partnerships to provide welding training as recommended by employers in the advanced manufacturing industry. It is important to note that, prior to development of this curriculum, PTC examined the 2021 Pennsylvania In-Demand Occupations List, which includes the occupations of "welder, solderer, cutter, and brazer." Between 2018 and 2028, this field is to grow by 5.8% (with 2% additional growth expected in Allegheny County). This accounts for 1,973 open positions per year, at an average annual rate of pay exceeding \$46,000. Under this grant, PTC would like to run three (3) cohorts of twelve (12) students. The 170 contact-hour program will be offered to up-skill incumbent and/or dislocated workers, with a focus on diverse populations which may not immediately consider a welding career. This training will include both classroom lecture and hands-on applications, leading to certification.	\$ 250,000.00
2021-GEDTF-182	Ohio Township	Ohio Township	Ohio	PRP Improvements	This project generally consists of Stormwater Basin Maintenance.	\$ 200,000.00

Application No.	Applicant	Applicant	Municipality	Project Name	Project Description	Total Amount Awarded
2021-GEDTF-185	Douglas Sample	Crafton Borough	Crafton	Crafton Borough Stair Replacement Program - Phase 1	The proposed project is phase 1 of the Borough's stair replacement program intended to replace deteriorating staircases throughout the Borough. Phase 1 includes replacing four (4) staircases. The work will involve replacing 195 concrete or wooden stairs with new concrete, associated cheek walls and landings along the staircases, 640 LF of handrail, 1,070 SFF of block retaining walls, and 70 LF of chain link fence. The project also includes site preparation, traffic control, erosion and sediment control, and site cleanup associated with each staircase.	\$ 200,000.00
2021-GEDTF-188	Robert M. Burkley	McCandless Franklin Park Ambulance Authority	McCandless	MFPAA CORE MEDICAL and DIAGNOSTIC EQUIPMENT	MFPAA is making the following funding requests for integrated clinical units as follows: 3 LifePack-15 Cardiac monitor defibrillator(s): \$114,000.00, this will allow for the completion of the monitor upgrade through the current ambulance units. 5 Automatic External Defibrillator(s) (AED) - \$10,000.00 to allow for upgrade of equipment that has/is coming to end of life. 1 Power Load Cot - \$18,000.00 this purchase will complete the transition to power cots as MFPAA has a growing population of larger patients and an increase in workplace injuries. 6 Portable Suction Units – \$15,000.00, which will aid in taking care of patients with respiratory difficulties, COPD, and ultimately cardiac arrest. 8-Patient Interaction Tablets - intended to minimize/simplify paper/physical contact between provider and patient - \$8,000.00. Implementation, professional services, training (and documentation), and tracking \$6,500.00. TOTAL \$173,500 As a point of reference, the cost to mechanically rehab an existing ambulance is approximately \$144,000 per unit, compared to a new fully equipped vehicle for around \$350,000 (if one is available). So the medical equipment upgrades of the current ambulance units provide much-needed time to acquire the resources for vehicle rehabs., But most importantly is the ability to provide excellent clinical care for our community in their emergent time of need.	\$ 150,000.00
2021-GEDTF-193	CITY OF CLAIRTON	CITY OF CLAIRTON	Clairton	City of Clairton Library Development	This project consists of constructing a new space for the Clairton Public Library in the City of Clairton. The new building is currently being constructed and library is responsible for funding the construction of their new space. A full itemized cost breakdown can be found in the attachments section of this application. However, an overview of the costs consists of: Architectural - \$209,800; Millwork (cabinets) - \$33,700; Mechanical, plumbing, electrical - \$231,400; Furniture and Equipment - \$219,300; Estimating Contingency - \$38,000; Constructing Contingency - \$51,300; General conditions, overhead, and profit - \$112,800. Total Project Cost - \$896,300.	\$ 195,263.00
2021-GEDTF-194	James Kenneth McCardle	Jefferson Memorial Park, Inc.	Jefferson Hills	Jefferson Memorial Park, Inc. Collaborative Leaf/Yard Waste Operation and Facility	Since 1995, there has been no additional grant funding and the initial equipment purchased with the 1995 grant funds, has far exceeded the life cycle for said equipment. Jefferson, at its sole expense, had to replace certain equipment, but this year, because it could not purchase the new equipment required, and no grant funds were available, it had to make the hard decision to suspend its leaf/yard waste intake from the SHACOG communities and non-SHACOG municipalities. Further, this year Jefferson was unable to accommodate a request from the County of Allegheny to accept its leaf/yard waste. The funds from this grant would enable Jefferson to re-open this collaborative leaf/yard waste operation and facility.	\$ 260,000.00

Application No.	Applicant	Applicant	Municipality	Project Name	Project Description	Total Amount Awarded
2021-GEDTF-196	Scott Koskoski	Boys & Girls Clubs of Western Pennsylvania	Pittsburgh-Ward 09	Boys & Girls Clubs Bus Transportation for Underserved Neighborhoods	Funds allocated would allow Boys & Girls Clubs of Western Pennsylvania to purchase three 23-passenger school buses to solve for a lack of transportation between specific underserved neighborhoods and BGCWPA clubhouses, which will enable more than (60) youth per day to attend our Before and After School programs, Summer Day Camps and access specialty services and outreach. Neighborhoods served will be McKees Rocks to our Sto-Rox Clubhouse, Northview Heights in Pittsburgh's North Side to our Estelle S. Campbell Clubhouse in Lawrenceville, and surrounding Carnegie to our Carnegie Clubhouse.	\$ 150,000.00
2021-GEDTF-199	Nick Bonesso	North Versailles Township Sanitary Authority	North Versailles	North Versailles Township Sanitary Authority Green Sustainability Plan	North Versailles Township Sanitary Authority (NVTSA), a non-profit government authority is seeking funds to replace and construct two new pump stations within the Township of North Versailles. The Green Sustainability Plan (GSP) will allow NVTSA to revitalize its current waste water collection system and develop new infrastructure for future developments. The total cost of the GSP will be \$2 million. The purpose of this request is to assist the Township's wastewater utility with comprehensive fiscal planning for the long-term management of the assets associated with the Project. The Project includes improvements to facility components which are past their useful life and are in need of replacement.	\$ 150,000.00
2021-GEDTF-209	Collier Township	Collier Township	Collier	Public Works Facility Sanitary Sewer Extension	Estimated 800 LF of PVC sanitary sewer service through Public Works Stock Yard	\$ 100,000.00
2021-GEDTF-210	Harris Ferris	Pittsburgh Ballet Theatre Inc.	Pittsburgh-Ward 06	Pittsburgh Ballet Theatre	In collaboration with The Mosites Company's/ Allegheny Shores project and Live Work Learn Play, Pittsburgh Ballet Theatre (PBT) will develop a staging site for the SAM-450 mobile stage as a seasonal performance venue at Allegheny Shores. PBT's SAM 450 Mobile Stage will become an integral component to the \$1.15B economic development project slated for the one and a half mile site along the Allegheny River spanning Sharpsburg at 13th street to Aspinwall at Center Ave. The SAM 450 is a 66,000 lb. mobile stage that provides a 3,400 sq. ft. stage at approximately 45' deep by 78' wide in performance area. PBT's two-week Celebration of the Performing Arts at Schenley Park's Flagstaff Hill, May 17-31, 2021 featured twenty-four performing groups performing to audiences of 8,000. In order to establish the riverfront destination as the next exciting mixed use development for the region, Allegheny Shores will provide a staging location for SAM 450 to create an anchoring element to the project. Construction of a weight tested slab that will serve as docking location for the unit will begin in March 2022. PBT will deploy and erect the stage on the site using IATSE Local #3 stagehands. PBT will furnish rigging covered wings and a full lighting and sound package. The SAM 450 will arrive in May and will be set up within two days. PBT with other cultural performances will provide the attractions drawing the public to the Allegheny Shores development.	\$ 150,000.00
2021-GEDTF-218	Ramo Joseph Lord	Historic Elizabeth	Elizabeth	Historic Elizabeth Building	This is a renovation project with several parts. Flooring. The flooring space needing renovated is 9,800 sq ft. - \$29,400 The building's HVAC - \$33,500 Hydraulic Elevator (to support ADA compliance) - Unit is \$72,000 with \$30,000 installation costs and labor. Two Lavatories - (ADA compliance and new facilities) - \$36,000 Resurface parking lot - 1,400 sq ft - \$6,300 Exterior site safety maintenance and environmental (using local flora) - \$10,000 Building's electrical service entrance upgrade and internet installation - \$20,600	\$ 75,000.00
2021-GEDTF-220	Brian Lowe Wolovich	Millvale Borough Development Corporation	Millvale	Bennett Station Town Square Phase 2	Repair and replace and insulate 6,300 square foot roof and downspouts. Repair roof access portal and door. Remove and replace three phase electrical service. Repair and replace exterior loading dock garage and walls.	\$ 150,000.00
