RE: Location for a Petrochemical Facility

Dear Mr. Woods:

As ExxonMobil considers locations for a new petrochemical plant, I invite you to visit Cambria County, Pa. The county recently received a powerful economic development tool that makes it more attractive than ever to new businesses.

You may have heard Pittsburgh Mayor Bill Peduto announce his opposition to the construction of additional petrochemical cracker plants in Western Pennsylvania. Let me assure you – Mayor Peduto doesn't speak for all of Western Pennsylvania. While he may not want the area to become "the petrochemical/plastics center of the United States," I am committed to fighting for jobs and economic growth in my county.

In June, Pennsylvania designated up to 375 acres in Cambria County as a Keystone Opportunity Zone. The move allows us to offer substantial state and local tax incentives for companies interested in relocating or creating jobs in our area. The flexibility of our KOZ designation means we can accommodate business needs of any size, from single parcels in a downtown setting to large industrial sites. More information on the benefits of a Pennsylvania KOZ can be found at <https://dced.pa.gov/business-assistance/keystone-opportunity-zones/>

Once again, I'm inviting you to tour Cambria County, Pa., as a potential location for a future petrochemical facility. I stand ready to work with you and elected officials from both parties to make a deal that benefits both ExxonMobil and the hardworking residents of our region.

If you would like additional information, please do not hesitate to contact me at 814-472-8012.

Sincerely,

A handwritten signature in blue ink that reads "Frank Burns".

Frank Burns, State Representative
