

STATE REPRESENTATIVE | 33RD LEGISLATIVE DISTRICT

# MANDY STEELE

SUMMER 2024

*Working For You*

## DEAR NEIGHBOR,

As a freshman legislator, you go to Harrisburg with a bunch of ideas and issues that are important to your district, but you're often told not to expect much action on them. You're told to focus on learning the ropes, and you're told to sit back and watch how things work. That's just not acceptable to me.

That's why I'm proud to say that I've been making progress on issues that are important to #District33. So far this legislative session, I've had eight bills pass the House. That's unheard of for a freshman legislator. I'm not done yet, and I'm working to get these proposals passed in the Senate for the good of all Pennsylvanians.

I'm grateful to my colleagues for supporting me and my legislation.

You can learn more about these bills inside this newsletter.

Sincerely,

A handwritten signature in black ink that reads "Mandy Steele".

Mandy Steele

State Representative for the 33rd Legislative District

## INSIDE:

HOUSE PASSES MY BILLS | BRINGING MILLIONS BACK TO THE DISTRICT  
FIRST RESPONDERS CORNER | VETERANS OUTREACH | OUT & ABOUT IN DISTRICT 33

# PASSED THE HOUSE

At a House Game and Fisheries Committee meeting discussing her legislation.

## BILLS DESIGNED TO PROTECT WILDLIFE, FARMS AND FORESTS

Farmers are being financially crippled by crop damage, while our woodlands are being decimated by the deer herd, and the legacy of hunting is waning. These bills are a collaborative effort with many organizations to revive hunting, while also being stewards of our wildlife and natural resources.

**H.B. 2106** — Permit Sunday hunting through June 30, 2029. Sunday hunting would NOT be permitted in any of the 100 state parks that are normally open to hunting. It also would increase the penalties for hunting on private land without permission.

**H.B. 2107** — Connect farmers to licensed hunters to manage deer populations on their property. The Pennsylvania Game Commission would create an online registry that farmers could access.

**H.B. 2108** — Require at least one member of the Pennsylvania Board of Game Commissioners to have experience in the agriculture industry. This would put a person knowledgeable in wildlife management on the board.

## PROTECTING PUBLIC HEALTH

Generating support for banning toxic driveway sealants in Pennsylvania.

With more driveway sealants available that are safer for public health and the environment, we should eliminate the sealants that are toxic.

**H.B. 1166** — Ban coal-tar-based sealants for driveways and parking lots because they are high in PAHs – polycyclic aromatic hydrocarbons, which can endanger public health and the environment. With more sealants that are safer, we should eliminate the sealants that are toxic to the health of Pennsylvanians.

## MAKING MENTAL HEALTH A PRIORITY

Rep. Steele at a Capitol news conference urging support for expanding mental health services in schools.

As the mother of four children, I worry about their mental health, just like many parents. This bill would prioritize students' mental health and well-being to help them better meet life's challenges with greater resilience.

**H.B. 1665** — The School Counseling Services Act would require schools to implement comprehensive counseling services that provide support to all students, and direct school counselors to spend at least 80% of their time providing student services.

## STUDYING THE MARCELLUS SHALE IMPACT FEE

Pennsylvania imposes an impact fee on drilling in the Marcellus Shale, but other states collect severance taxes. Which one is fairer to the state and to the company? That's what this resolution will find out.

**H.R. 131** — The Legislative Budget and Finance Committee will study and compare impact fees and severance taxes in the top five gas-producing states and examine the competitive business climate for the industry in those states.

## UNEMPLOYMENT FOR STRIKERS

Undertaking a strike is a serious decision; it's not made lightly and usually happens after negotiations have reached an impasse. This bill would:

**H.B. 1481** — Provide financial relief for striking workers by permitting them to qualify for unemployment compensation benefits.

## INSURANCE COVERAGE FOR BP MONITORS

Hypertension and related disorders are a leading cause of maternal, neonatal and fetal health complications and death. Early identification and intervention is critical to the health of the mother and baby. Remote blood pressure monitoring is a reliable, effective strategy in getting control of the mother's blood pressure and avoiding costly and preventable complications.

**H.B. 2138** — Require insurance coverage for home blood pressure monitors for pregnant women.

## ALLEGHENY SHORES PROJECT MOVING FORWARD

Things are happening for the Allegheny Shores project that stretches from the Allegheny River Trail Park in Aspinwall to 13th Street in Sharpsburg.

The project recently received nearly \$35 million in combined federal/state funding.

More than 50 acres will be revitalized along the Allegheny River that has been historically separated from the community by a rail corridor for nearly 100 years. Major improvements in

transportation access and mobility, enhancement of regional trail networks and revitalization of the waterfront will help connect residents with the river and breathe new life into the area.

This important revitalization of a brownfield site has regional implications throughout the Allegheny Valley, and it is exactly the kind of project that we need to encourage in our small riverfront communities. I'm proud to support this project.

# VETERANS OUTREACH

Each month, my Cheswick office hosts a veterans outreach specialist so veterans and their families may seek help and ask questions about the benefits and services owed them – from pensions and compensation to education, health care and death benefits, and more.

The service officer is available on the 2nd Monday, Tuesday and Wednesday of the month, from 10 a.m. to 2 p.m.

Please call (724) 826-5151 to schedule an appointment.

## OUT & ABOUT IN DISTRICT 33

# BRINGING MILLIONS BACK TO THE DISTRICT

## STEELE-OBTAINED GRANTS FOR #DISTRICT33

Transportation  
**\$2,268,966**

First responders  
**\$409,068**

Utilities  
**\$7,431,833**

Recreation  
**\$246,750**

Municipal/Schools  
**\$5,089,995**

**TOTAL:**  
**\$15,446,612**

I've been committed from Day 1 to making sure our communities get their fair share of state grant funding, and so far communities in the center of the district have received **\$2.6 million** in the last 18 months alone. It's my privilege to secure this funding. Here is a sampling of the grants I have obtained so far:

- **\$2.5 million for water and wastewater improvements to improve access to drinking water and improve waste disposal.**
  - Waterline replacement along North Street in **Springdale Borough**, Parkway Drive in **Springdale Township** and North Highland Avenue in **Cheswick**
  - Sewer linings for the **Deer Creek Drainage Basin Authority** and for **Harmar Township**
  - Improvements to the wastewater treatment plan for **Upper Allegheny Joint Sanitary Authority**

These projects will save money, avoiding costly emergency repairs and reduce sanitary treatment costs, and save taxpayer money.

Other public safety grants include:

- **\$86,000 for new equipment, such as vehicles and dash cams, for Allegheny Valley Regional and Harmar police departments.**

These are state dollars going to work right here in our neighborhoods to improve residents' quality of life, and I continue to work to bring state money back home to benefit the district.

## FIRST RESPONDERS CORNER

One of my jobs as state representative is to fight for state funding for local communities and organizations at home. I'm pleased to note that recently, I was able to obtain \$18,043 for the Southern Allegheny County Emergency Services, formerly known as the Aspinwall and Sharpsburg Volunteer Fire departments. The merged fire department used the funding to pay for the new signage on all vehicles, buildings and new uniforms for the 30 firefighters. I also secured \$50,000 for the Allegheny Valley Regional Police Department's new pickup truck they recently added to their fleet.

I also wanted to take this opportunity to thank area first responders for their cooperation and partnership to make my recent events a success for the community. Thanks to them and everyone who participated, 154 fire alarms were installed, area children learned bicycle safety and were able to get up close to emergency vehicles and see the equipment firsthand, and many drivers were able to get their illegible license plates replaced.

Sound the Alarm Smoke Detector Event with Pioneer Hose Co., Summit Hose Co., Eureka Fire & Rescue and Highland Hose Co.

Kids Safety Event with Harrison Twp. PD, Tarentum Borough PD, Hilltop Hose Co., Harrison Hills VFD and Citizens Hose Fire-Rescue-EMS

Illegible License Plate Event with Allegheny Valley Regional PD

The Bike Rodeo and safety event in Harwick with the Allegheny Valley Volunteer Fire Co, Allegheny Valley Regional PD and Lower Valley EMS

## UPCOMING EVENTS

### OUTDOOR RECREATION & CONSERVATION EXPO

**Sunday, September 15 • 12 p.m. – 4 p.m.**  
**Pittsburgh Shrine Center, Cheswick**

Access state resources, celebrate outdoor traditions and explore the work of local organizations in outdoor recreation & conservation. Some vendors include:

- PA Game Commission
- Allegheny Parks Foundation
- PA Fish & Boat Commission
- Erie to Pittsburgh Trail
- The Audubon Society of Western PA

Lunch will be provided.

### SENIOR RESOURCE FAIR

**Friday, September 27 • 11 a.m. – 2 p.m.**  
**Allegheny Valley Volunteer Fire Co., Harwick**

- Flu shots, blood pressure checks & stroke education
- Property Tax/Rent Rebate Clinic
- PRT Bus Pass Clinic
- Unused prescription takeback
- Hot, to-go meal will be provided

### SHRED EVENT

**Saturday, October 5 • 10:30 a.m. – 12 p.m.**  
**Cheswick District Office**

Protect yourself from ID theft by safely shredding your confidential documents.

### VETERANS BRUNCH

**Wednesday, October 30 • 10:30 a.m. – 12:30 p.m.**  
**Springdale Veterans Association**

Learn about services and benefits available to veterans.

- Hot, catered brunch
